This is a Morecambe Bay Nature Improvement Area project.

Join us
for an hour
or two, or the
whole day.

This area is home to some of the UK's most precious and threatened species of plants and animals.

By taking part you will be helping create a snapshot of the variety of life living in and around Arnside (at Arnside Knott, Grubbins Wood and Dobshall Wood).

This is real science in action!

Guided walks and activities searching for all sorts of nature - butterflies, birds and fantastic flowers; beetles, bees and trees; and learn how to track field voles too.

There will be lots of fun for all ages too – take part in a wildlife mystery trail, nature games, camouflage caterpillars, making bug homes and do all this with your face painted like a bug, bat or butterfly!

Being well prepared -

Please come well prepared for being outdoors. Bring a drink and packed lunch!

If you are joining the dawn and dusk events, please bring a torch and insect repellent.

If you have bug pots, sweep nets, binoculars or a favourite ID book, then please bring them along.

See www.arnsidesilverdaleaonb.org.uk for updates and more detailed information, particularly for joining dawn and dusk events.
